

1950 West/Frontage Road Truck Route

As part of the Utah County I-15 Corridor Expansion (I-15 CORE), crews will extend a drainage culvert that crosses underneath 1950 West between 1600 South and 900 South in Springville. 1950 West will be closed at Dry Creek, just north of 1600 South for approximately four months. Trucks are advised to use 2700 North to Spanish Fork Main Street as an alternate route. This work is expected to begin the week of March 14.

We recognize this work will be inconvenient and encourage you to visit our website or subscribe to weekly e-mail updates for more information.

Sincerely,
The I-15 CORE Team
